## CONFIDENTIAL'

25X6A

- 5. FRANCE: Agreement with US trade proposals—During the recently completed commercial policy talks in Washington the French concurred in the "fundamental ideas" of the US trade proposals and agreed to make a strong statement in their favor, the State Department reports. The French (a) do not intend to increase their tariff protection over pre-war figures; (b) have disavowed use of import quotas, except as required by balance—cf-payment difficulties during the "reconstruction period;" and (c) have stopped subsidizing exports.
- 8. POLAND: US reaction to delay in fulfilling credit conditions—Secretary Byrnes, after conferring with Ambassador Lane, has agreed that negotiations for the sale of US surplus property to Poland should be suspended until Poland has fulfilled the conditions attached to the Export-Import Bank credit to that country

  The Secretary (a) feels that, if Poland does not fulfill the conditions, consideration should be given to withholding the credit, and (b) has asked Acheson to arrange for stopping the delivery of US surplus supplies presently authorized.
- 7. AUSTRIA: Soviet attacks on US aircraft—Minister Schoenfeld in Budapest, commenting on recent Soviet attacks on US aircraft, notes a "tightening Russian attitude toward our air objectives" and concludes that these incidents are part of a deliberate plan to render air operations "most difficult." General Clark, however, does not believe these attacks signify a change in Soviet policy, but rather are irresponsible acts by undisciplined Soviet personnel.
- 8. USSR: Soviets make formal case of "Ruess incident" -- Embassy Moscow considers that the Soviets have been prompted to make a "formal case" of the "Ruess incident" (which they would normally have passed over) by (a) a desire to retaliate for "their Canadian and Seattle espionage wounds," and (b) their embarrassment over the March 3 attack on Wallace. In view of the aggressive Soviet position, the Embassy raises the questions as to whether (a) recourse to diplomatic immunity is likely to prove effective, and (b) US retaliatory action might not be advisable.

## CONFIDERTIAL

9. USSR: Press attacks halted on French in Indochina--Charge Smith reports that Soviet press criticism of the French in Indochina recently has practically disappeared, while attacks on the British and Dutch in Indonesia have continued. Smith believes that the Soviets have discontinued their attacks on the French because (a) continuation would presumably require the French Communist press to follow suit, thus alienating a number of Communist Party followers and weakening the Communist position in France, and (b) if France were Communist-dominated, Indochina could be more useful to the USSR within a French administrative union, since it would offer a base which the USSR now lacks for Communist activities in Southeast Asia.

## FAR EAST

- 10. KOREA: Joint Commission adjourns sine die-General Hodge reports that at the 6 May Joint Commission meeting the Soviet delegation (a) declined to consult with any party affiliated with the Democratic Council, whose chairman recently voiced opposition to trusteeship; and (b) "brushed aside" the US proposal to discuss the removal of the 38th Parallel barrier. The meeting was adjourned sine die pending clarification of the consultation issue.
- 11. KOREA: Delay in Pauley clearance—General Hodge reports that as of 5 May no reply had been received from the Soviet commander in Korea to the request for authority for Mr. Pauley and party to proceed to North Korea. Hodge believes that if a definite answer is desired prior to Mr. Pauley's arrival, a request must be forwarded by head-quarters higher than his own. He notes that a similar request, which he forwarded to Soviet authorities in North Korea last November, is still unanswered.
- 12. USSR: Amphibious training at Port Arthur--Commander 7th Fleet has learned from a usually reliable source that the Soviets are conducting amphibious training at Port Arthur under experienced instructors.
- 13. JAPAN: Chinese to send occupation troops—Embassy Nanking reports that the Chinese Government has decided to send 15,000 occupation troops to Japan.
